

Now offering ONLINE SCHEDULING

SCHEDULE
APPOINTMENTS
FOR YOUR PATIENTS
ONLINE.

Things to Know :

- ✓ **FOR YOU:** With this tool, you will be able to schedule your patients preferred date, time, and location. You will also be able to check to see if your patients are scheduled for their exam even if they choose to schedule by phone.
FOR YOUR PATIENTS: This software allows your patients to add appointments to their calendar, receive reminders, fill out exam forms, check-in ahead of their appointment, and reschedule/cancel.
- ✓ **THIS IS AVAILABLE FOR MOST EXAMS.** While we would love to provide this option for all of our exams, there are specific exams that are not ideal for online scheduling. This is because these exams require certain radiologists on our team to be present. This creates the need for more specificity in scheduling than this software will allow.
- ✓ **THIS IS NOT A REPLACEMENT FOR OUR SCHEDULING TEAM.** This is simply another option that we want to give to our referring physicians. Some offices will find it is a good fit for them, while others will continue using other methods to schedule.
- ✓ **AT THIS TIME, YOU WILL NOT BE ABLE TO SEE RESULTS/REPORTS USING THIS SOFTWARE.** Currently this program will only allow you to schedule your patients, and monitor/modify their appointment date/time.

Questions or to sign up :

- ✓ **To sign-up,** email: opendr@dic-KC.com
- ✓ Technical concerns/questions will be addressed through online chat with the Open Doctor team.
